1) KLEENZINE 1 - Bathroom Cleaner Concentrate

Is a product that hygienically cleans all washable surfaces in bathrooms viz. floors, sinks, tubs, fittings and fixtures, glass, tiles etc. and removes stubborn stains and dirt. It gives sparkling clean hygienic surfaces with a pleasant aroma. It does not contain any abrasive so it will not scratch bathroom surfaces. Kleenzine 1 is safe to be used on granite and marble. This product is economical in use as it has to be further diluted in water and then used.

Directions for use : 15 to 20 ml of the product to be diluted in 1 litre of water. For highly soiled surfaces 40 to 50 ml of the product is to be diluted in 1 litre of water. For better results mild scrubbing may be required. Product may be used by spray and wipe method with lint free cloth. After cleaning, rinse the surface with clean water.

Specific gravity @ 25°C 0.95 - 1.10

pH 9.5 to 11.50

Colour : Yellow

Packaging : 500 ml x 20, 1 Litre x 10, 5 litre x 2

Safe Handling : For prolonged use and sensitive skin, use hand gloves. Use safety glasses to be safe from accidental splashing. Use the product in ventilated areas. Wash hands during breaks and at the end of the work.

Storage : Store in a cool and dry place away from sunlight and heat.

2) KLEENZINE 2 - Hard Surface Cleaner Concentrate

It is safe for use on all washable hard surfaces. This product hygienically cleans all washable hard surfaces and removes stubborn stains and dirt. It gives sparkling clean streak free surfaces with a pleasant aroma. It is meant for quick and gentle use for cleaning surfaces eg., telephones, frames, cupboards, racks including glass and mirrors, it can be used on shiny floors like granite and marble. This is a concentrated product and is economical in use as it is to be diluted in water and used.

Directions for use : For hard surface cleaning like floors 20 to 40 ml of the product to be diluted in 1 litre of water. For cabinet cleaning, glass cleaning, and other hard surfaces it can be used by diluting 10 to 20 ml of product in 1 litre of water. Kleenzine can be used for floor mopping and also can be used by spray and wipe method with lint free cloth.

Specific gravity @ 25°C 0.95 - 1.10
